

Let's talk about **SKINCARE** and an incredible new find... [@meder beauty](#)❤️

I'm done mixing and matching my daily skincare routine with 8 different brands, because you can do more harm than good, and lately my skin has been visibly irritated. It's only been two weeks that I started using a curated skincare regimen by [@meder beauty](#) that is designed to work in synergy with your specific skincare needs (they have an online beauty consultant that picks the perfect products for you!!!)

I am very impressed with these products, because the Meder Beauty approach is scientifically driven, but still very natural. The products are unscented and loaded with pre- and probiotics.

Here is the deal:

Even though I have mature skin, I still get breakouts, but cannot use overly drying lotions and toners. For this I've been using **ES 4 EU SWB CONCENTRATE**, followed by **SD-7 SALVA-DERM PROBIOTIC CREME FOR NORMAL AND SENSITIVE SKIN**. At night I'm using **AX-1 CALMING CLEANSING MASK** followed by **SA-3 SOIN APAX ANTIOXIDANT SERUM FOR SENSITIVE SKIN** followed by the **SD-7** from the morning routine. One of my biggest skincare concerns is my neck and décolletage, and this is where I've seen the biggest improvement. This stuff is **MAGIC!** **AN-7 ARMA-NECK FIRMING REJUVENATING NECK CREAM** ❤️❤️❤️

These synergy of these products is amazing. I have yet to get a breakout, my sensitive skin is visibly calmed. I know that [@meder beauty](#) makes products for melasma and brown spots, and given the results of these I'm definitely going to try that too! Getting this many products is definitely not cheap, but they are well worth it! You guys should definitely do the [@meder beauty](#) online beauty consultant just to see what it recommends!
